TESTIMONIALS

Once you try it, you can't go back

Inexpensive, healthy and great-tasting meals, without even having to order manually! It feels truly magical.

— Dave Bryson

The AI algorithm is crazy good, it chooses the right meals for me every time. It's amazing not to worry about food anymore!

— Ben Hadley

Omnifood is a life saver! I just started a company, so there's no time for cooking. I couldn't live without my daily meals now!

— Steve Miller

I got Omnifood for the whole family, and it frees up so much time! Plus, everything is organic and vegan and without plastic.

— Hannah Smith

```
const displaytestimonialItems = monial => {
  monial.forEach((element, index) => {
    const html = `
      <figure class="testimonial">
        <img
          class="testimonial-img"
          alt=${element.alt}
          src=${element.img}
        />
        <blockquote class="testimonial-text">
          ${element.text}
        </blockquote>
        <p class="testimonial-name">${element.name}</p>
      </figure>`;

    testimonialImg.insertAdjacentHTML('beforeend', html);
  });
};
```

gallery (這張因視窗太小而跑版，實際是正常)

```

const displaygalleryItems = gallery => {
  gallery.forEach(element => {
    const galleryhtml = `
      <figure class="gallery-item">
        <img
          src=${element.img}
          alt=${element.alt}
        />
        <!-- <figcaption>Caption</figcaption> -->
      </figure>`;

    gallery_imgs.insertAdjacentHTML('afterbegin', galleryhtml);
  })
}

```

甘苦談

還行，普普通通吧

困難點

1. document.querySelector('# or .') 要清楚設錯事件不會發生會很懊惱
2. HTML element 要清楚些
3. callback 要清楚些(map, forEach, for...in)

自主學習

目前都聽得懂 結束
